A workshop for high school students of SDVEMHSS on Building Communication Effectiveness

With

Manoj Krishnan, Programme Guide, The Fine Tuner

Venue: Hotel Royale Park, Alleppey

Date: 25-27 January, 2019

Please share your experience about the Workshop (Please write overleaf if required)

These three days were ~~by~~^{my} greatest days. I learned new things from these three days. These days boosted my confidence. I lost my stage fear and I was feeling very happy. I had a good time these three days. This type of class was necessary for me. This was one of the class I was waiting for. I am thankful to Sir (Mr. Manoj Krishnan) for helping me to get over stage fear. New lessons were learned by me and I didn't feel even bored attending this class. I learned about the things happening around us and the hard realities of life in the life of people around us.

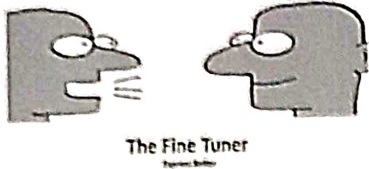

I recommend this class to every age group. This class helped me a lot.

In my opinion this programme was a very good programme. I enjoyed it a lot. I have learned many things from it. I will share my experience to my friends and families and inspire them. I will try to act according to my experience and try to make a change. Through this programme I learned to speak to public without fear. Through this I have also learned a lot. I am also interested to be a part of this programme next year. I also liked Manoj sir and his way of speaking.

To Manoj Sir,

'Chisel' was an excellent programme based on career development, public speaking, communication, personality development etc. I wish to have a few days more because I learn many things from this. It was a very interesting programme as you ask us many tricky questions. I also share what you taught me these 3 days with my parents and they were also happy to send me here. I would like to attend more classes taken by you as it was awesome. I was having some fear to make public speech, but now I am not at all scared to make a speech.

Yours sincerely
Drisya

It was really inspirational class. We got many information that we didn't know. It really increased our confidence to speak in public. We would like to have much more of such classes in the upcoming year. It was really enjoyable, we got to know about different things and tips for better communication among ourselves. I thank our principal, Indu Madam, for giving us this wonderful opportunity to attend this class and I also want to thank Manoj Sir for guiding & teaching us for the past two days.
